Butler Sinks

Butler style sinks in quality English ceramic, reminiscent of the "good olde days". Also in project ceramic, stainless steel, and nano black. Cool and silky to touch, the hard, non-porous surface is resistant to chemicals, detergent, and heat. Being individually handcrafted and finished in fireclay, and thus limited by the manufacturing technology, dimensions are not precise. We recommend making the cabinetry to suit, upon receiving the sink.

Pyragranite Bowls

Quartz composite sinks made of 80% quartz. Quartz is a hard material, but care is required. For example, if it is too hot to touch, it's too hot for the sink; they can still scratch or mark. For further info, please ask for our Care & Maintenance Guide, or go to valore.co.nz

Frequently Asked Questions

1. Why so many sinks?

We stock the largest range in NZ, of various sizes, styles, finishes, material, and prices just so that customers can choose the sink that best suits their situation.

2. Will the sink fit?

A good physical fit depends on the space available, eg cabinet size, depth of bench, and existing cut-out (if any). We list overall dimensions and cabinet size to help with this process, but please feel free to ring us for a no-obligation discussion!

A key point to remember is to have the sink at hand, prior to making irreversible changes, such as making the cut-out.

3. What if the sink doesn't fit?

Our return policy allows for no-fault returns, subject to a restocking fee and freight, for items returned in good saleable condition, together with all parts such as the waste kit. Your risk is minimal.

4. When will I get the sink?

Orders received before 2pm are usually processed and dispatched the same day, subject to stock availability.

Delivery is typically the next day in the North Island, 2-3 days in the South Island. Rural address may require another 2-3 days.

5. The sink arrived damaged!

Please inspect the sink(s) upon arrival. In case of poor arrival condition, it is critical that you notify us so that a claim can be filed against the courier.

Please be mindful of the time limit that couriers place on us for a claim: 24 hours (for sinks sent on pallets, eg ceramic and pyragranite sinks) and 7 days (stainless steel sinks).

6. What is the warranty on the sink?

Please view our warranty on our webshop valore.co.nz

7. Where can I buy Valore sinks?

We supply through all the main DIY chains and all major plumbing companies and joineries.

You are also welcome to place an order with us through our webshop, or drop in at our showroom.
